

New

Label Remover

inclusive
special-spatula

For easy and quick removal of paper labels and residues of pressure-sensitive adhesives.

Stickers and labels are often very difficult to remove. The dissolving power of conventional cleaners is frequently not sufficient, a mechanical removal can cause damage to the surface, e.g. scratches.

WEICON Label Remover removes labels and residues of acrylate- and caoutchouc based pressure-sensitive adhesives safely and without problems.

WEICON Label Remover is suitable for most surfaces, e.g. glass, metals, wood, foils and plastics.

Areas of application:

- Easy and safe removal of adhesive labels
- Removes price labels (e. g. after wrong price labelling)
- Removes address and product labels, e.g. from barrels and canisters
- Removes marking labels, e. g. from shelves, containers, drawers and machines
- Removes label residues, e. g. from transport and conveyor belts at supermarket check-outs
- Removes adhesive residues of foil labels, e. g. vignettes on car windows

Instruction for use:

Spray a sufficient quantity of Label Remover onto the label, allow to react for approx. 1 minute and pull off slowly. Repeat process in case of stubborn residues and remove old labels with attached spatula, if necessary. Spray again afterwards and clean surface with a cloth.

Since Label Remover evaporates without leaving residues, new labels can be fixed to the surface without problem.

*Check surface compatibility prior to application

Packaging:

500 ml	Spray can with special-spatula	Art.-No.: 11206500
5 l	Bulk	Art.-No.: 15206005
10 l	Bulk	Art.-No.: 15206010
30 l	Bulk	Art.-No.: 15206030
